# Erin Crescent Residential Development Public Information Meeting

The first step to having a successful strategy for the next residential development, is for the citizens of Fort Frances, Council, and the Town Divisions to be briefed on the facts, creating an open and transparent flow of information.

The Town has been successful with the sale of the Huffman Court Subdivision lots, and with the need for new housing opportunities, Erin Crescent is an important future development for the Town of Fort Frances. A larger and more diverse residential tax base provides even more opportunities for community services to be enjoyed by all citizens.

Please plan to attend our meeting.

The Planning and Development Department is interested in gathering input from the people of Fort Frances on the next step of residential development.

*We look forward to hearing from you  
in the pursuit of keeping Fort Frances Boundless!*
